

Delivering Turnkey Energy Efficiency Projects

Turnkey Solutions for Energy Efficiency Projects

- ▶ Home Insulation
- ▶ Air Source Heat Pumps
- ▶ Solar Panels
- ▶ EV Charging Points

About Us

- Infinity Energy Organisation was created in 2012 out of a passion for energy-saving and sustainable solutions.
- Through word of mouth and a commitment to offer high quality products and customer service, Infinity has become one of the most beloved energy-based home improvement companies in the UK.
- Our biggest reward is seeing our customers save money on their energy bills while making their homes more sustainable.

Meet The Founder

Manoj Patel **Founder & Managing Director**

Manoj is a visionary leader who founded Infinity Energy to provide sustainable, energy-efficient solutions that help families save money and reduce their carbon footprint. With core values of innovation and sustainability, Manoj has created not just a business but a movement— driven by a dedicated team he calls the Infinity Family. Together, they are committed to leaving a positive impact on both people and the planet, creating a legacy of meaningful change.

Core Values

On a mission to help save our planet and help You get to Net Zero

Infinity Energy Organisation (IEO) Managing Agent

Installation Commitment

Communication

We keep the lines of communication open, updating the customers on progress to ensure satisfaction.

Health and safety

We adhere to stringent health and safety standards, preparing the site and using protective gear to ensure safety for all.

Flexibility and adaptability

We communicate transparently and adapt to any unforeseen changes, ensuring we have the approval before proceeding.

Upholding personal customer requirements

We respect customers' schedule, ensuring installations occur at the agreed times with minimal noise and disruption.

Professional presentation and conduct

Our team, in branded uniforms and with neatly organised equipment, reflects our professionalism and respect for the customers' property.

Tidiness and minimal disruption

Our teams maintain tidiness, cleaning as we go, and ensuring a thorough clean-up post-installation.
